

**Fountain Creek Watershed Flood Control and Greenway District  
Progress Meeting - Project Updates  
May 21, 2024**

**Attendees:** Alli Schuch and Steve Rodriguez, FCWD; Drew Beck, Dan Bare and Tori Mack, Matrix Design Group and others online.

**Discussion Items:**

**Pueblo Levee Floodplain Restoration** – 2-year warranty period ends in December; monitoring site visit was done last Friday. Weeds require spraying and reseeding of some areas will likely be required.

**Fountain Creek Letter of Map Revision** – Pueblo Levee Floodplain Restoration, 13<sup>th</sup> Street Channel Stabilization and Highway 47 Channel Restoration – Second review comments are being addressed and response is due July 15.

**Eagleridge/Highway 47 Channel and Floodplain Restoration**

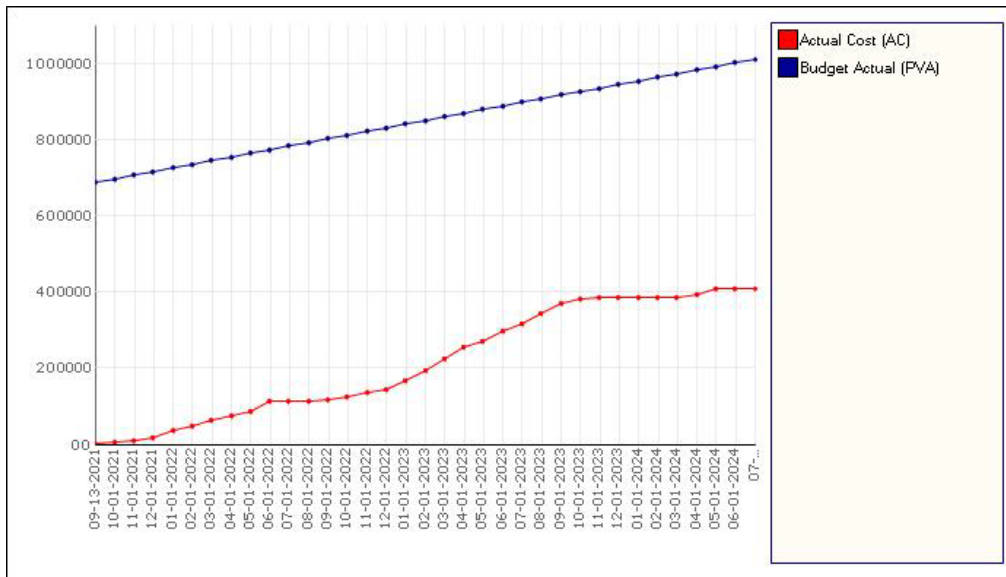

Project Summary: Includes approximately 6,000 feet of Fountain Creek within the City of Pueblo from downstream of the Pueblo Board of Water Works (BOWW) pipeline crossings upstream to a tributary outfall. Elements include approximately 1,300' of bank stabilization and two rock riffles, removal of exposed bollards at Board of Water Works utility crossing (partial section of Focus Area ID 2-9-10), removal of an abandoned 30" steel waterline and restoration of Highway 47 improvements.

**Budget:**

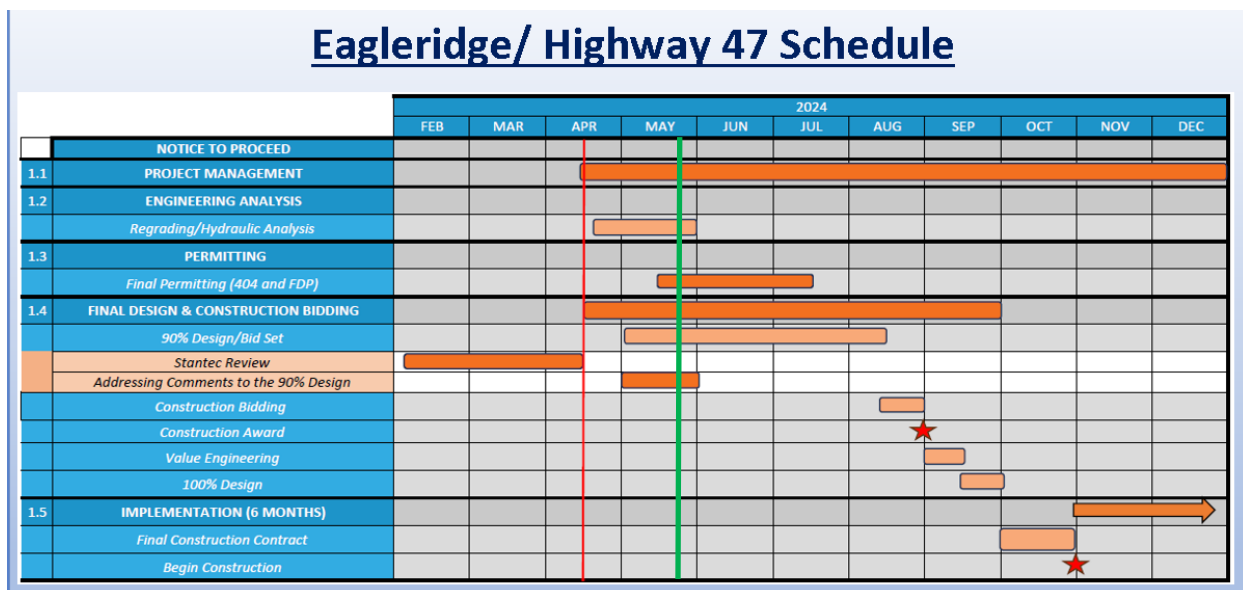

Design – per Task Order 2021-1, Amendment 9, Change Order 3, \$1,011,558, approximately 60% remaining.

Construction – per alternatives analysis, \$7,200,000

# Fountain Creek Watershed Flood Control and Greenway District Progress Meeting Agenda May 21, 2024

Schedule:

Stantec Review Comments:

- Improve downstream transition to Highway 47 bank protection.
- Increase number of foundation logs
- Extend bank protection into tributary at upstream end of project.
- Reduce height of bankfull bank
- Reinforcement of bank protection is good

**Fountain Creek Watershed Flood Control and Greenway District  
Progress Meeting Agenda  
May 21, 2024**

Current Tasks

- Updating and combining topographic mapping
- Incorporate Highway 47 restoration
- Regrading to achieve earthwork balance
- Address Stantec comments
- Revise bank protection detail to include reinforcing materials
- Refining grading for revised bank protection detail

Next Steps

- Hydraulic analysis for stability and floodplain impacts
- Update 404 permit application
- Submit Floodplain Development Permit application
- Landowner agreements

Next Meeting: June 18, 2024 at 12:30
